

Weight

W

H

Height

LT-S1350S

Weight: 350kg

Overall Dimensions LxWxH:
1660mmx1325mmx1210mm

Sweeping width:
1350mm (500mm brush)

Number of burshes: 3

POWER

Rolling Brush Motor

550W

Driving Motor

750W

Side Brush Motor

2×85W

Working Time

4-6 Hours

Charger

24V30A
(Lithium battery)

Charging Time

5 Hours

Maximum Climbing Capacity

20%

Dust Collecting Motor

192W

Dustbin

100L

Solution Tank Capacity

80L

Max Theoretical Work Efficiency

10000m²/h

Max Speed

8km/h

PRODUCT ADVANTAGES

01

Smart designed LCD screen
for display

02

IC card-swiping startup and
one-click startup function

03

Dry/Wet/Rain modes
for option

04

Innovative and intelligent PCBA
control with multi-protection
function

1) Low battery warning and
protection

2) Overcurrent and short circuit
protection

3) Charging protection

05

Seat sensor for anti-misdriving
safety protection

06

Electronic autobrake and
parking function

07

Intelligent automatic
rising-lowering brushe

08

Electric water spray system

09

Low water level
waring of solution tank

10

New sound equipment, USB port
and ambient lighting
