

Weight **W**

H
Height

LT-S2050S

Weight: 670kg

Overall Dimensions LxWxH:
2200mmx2050mmx1950mm

Sweeping width:
2050mm (500mm brush)

Number of burshes: 5

Filter area: 9.5m²

POWER

Rolling Brush Motor

700W

Driving Motor

2200W

Side Brush Motor

4×60W

Working Time

3-5 Hours

Charger

48V25A
(Lithium battery)

Charging Time

4-5 Hours

Maximum Climbing Capacity

25%

Dust Collecting Motor

500W

Dustbin

180L

Solution Tank Capacity

200L

Max Theoretical Work Efficiency

20000m²/h

Max Speed

10km/h

PRODUCT ADVANTAGES

01

Smart designed LCD screen
for display

02

IC card-swiping startup and
one-click startup function

03

Dry/Wet/Rain modes
for option

04

Innovative and intelligent PCBA
control with multi-protection
function

1) Low battery warning and
protection

2) Overcurrent and short circuit
protection

3) Charging protection

05

Seat sensor for anti-misdriving
safety protection

06

Electronic autobrake and
parking function

07

Intelligent automatic
rising-lowering brushe

08

Electric water spray system

09

Low water level
waring of solution tank

10

New sound equipment, USB port
and ambient lighting
