

Weight **W**

H
Height

LT-S860X

Weight: 235Kg

Overall Dimensions LxWxH:
1640mmx950mmx1370mm

Scrubbing width:
860mm (2*17 inch brushes)

Squeegee width:
1140mm

POWER

Brush Motor

550W

Suction Motor

450W

Battery Capacity

24V/100Ah

Working Time

3-5 Hours

Charger

24V20A
(Lithium battery)

Charging Time

5 Hours

Maximum Climbing Capacity

18%

Work Noise

70 dbA

Solution Tank Capacity

130L

Recovery Tank Capacity

135L

Max Theoretical Work Efficiency

6800m²/h

PRODUCT ADVANTAGES

01

Smart designed LCD screen
for display

02

IC card-swiping startup and
one-click startup function

03

ECO/Standard/Heavy
modes for option

04

Innovative and intelligent PCBA
control with multi-protection
function

1) Low battery warning and
protection

2) Overcurrent and short circuit
protection

3) Recovery tank full of water
protection

4) Pipe blockage protection

5) Charging protection

6) Water filling full protection

05

Seat sensor for anti-misdriving
safety protection

06

Intelligent automatic install
brush and release brush

07

Intelligent automatic
rising-lowering brushes
and electric lifting squeegee

08

Water suction delayed
off function

09

Low water level warning
of solution tank

10

New water gun, garbage collection
basket, sound equipment, USB
port and ambient lighting
